

## Herberger Institute Day - A Community Design and Arts Festival

### Feb. 21 on the ASU Tempe campus and online

### Save the date and register today!

The Herberger Institute for Design and the Arts is more than a design and arts college. It's a creative city, populated by more than 8,000 artists, designers, scholars — working, teaching and learning together. Herberger Institute Day launched in 2017 to bring together the students, faculty and staff of the Institute's schools and art museum for a day of creative exploration and conversation with workshops, performances and a community meal. Herberger Institute Day is now a community design and arts festival that celebrates the entire Institute.

This year, our theme is Design and the Arts for Everyone! With that being said, we're inviting the entire ASU community and local high schools to participate. Festivities will be held on the Tempe campus and online. We offer three different workshop blocks so you can sign up for a variety of things that interest you. With over 60 different workshop offerings, you will be sure to find something that sparks joy and creativity.
